

CUSTOM GICLÉE PRINTS

Our 12-color giclée printers offer the highest quality photographic or art prints available. We offer a print resolution up to 2400 x 1200 dpi, producing prints with fine blends and photographic transitions. While standard printers often leave a color cast that tints black and white images, our printer produces true blacks and whites. You can expect a flawless result, true to color and with no visible graininess.

	Archival Matte - 230g	Photo Gloss/Luster	Somerset Velvet - 316g	Fredrix Canvas w/ 1.5" border	Kodak Metallic Paper
